Other Requirements

Conditions and Terms

The following conditions and terms apply to our Virtual Developer Service. By using the service, you agree to be bound by them.

- Although we try our best to provide accurate service, we are not responsible for errors that may occur. Under no circumstances, Dynamsoft should be responsible for any damages caused by our service. You agree to use our service at your own risk.

- With the Virtual Developer Service, all the requirements must be directly TWAIN related and can be implemented with Dynamic .NET TWAIN or Dynamic Web TWAIN.

- Only code is provided. No documentation will be provided.

- Dynamsoft agrees to keep all the communication between Dynamsoft and you confidential.

- You agree to keep all the communication between Dynamsoft and you confidential.

- The contract/development begin date should be the date Dynamsoft developer sign the requirement analysis form.

- If integration to your existing system is required, you need to provide the access of the related source code, database and etc…

Dynamsoft reserves the right to not carry out the Virtual Developer Service at Dynamsoft's discretion. If we decide not to carry out the Virtual Developer Service, we will refund you the full service fee.
